The dilution of Incentive program 2017/2020 taking into account the full subscription and exercise of all warrants outstanding in the Company is estimated to approximately 1.48 per cent of the total number of shares and votes in the Company, provided that full subscription and exercise of all issued warrants occurs.

In the event the Company carries out a bonus issue, Subscription shall – where notice of Subscription is made at such time that it cannot be effected at the latest on the tenth calendar day prior to the shareholders' meeting which resolves upon the issue – be effected only after the shareholders' meeting has resolved to carry out the bonus issue. The re-calculations shall be made by the Company in accordance with the following formulas:

$$\text{Re-calculated Subscription Price} = \frac{\text{Previous Subscription Price x number of shares prior to the bonus issue}}{\text{Number of shares following the bonus issue}}$$

When recalculating in accordance with the above formula, any shares held by the Company shall be disregarded. The recalculated Subscription Price and number of Shares, recalculated in accordance with the above, shall be determined by the Company as soon as possible following the shareholders' resolution regarding the bonus issue, but will not be applied until after the record date for the issue.

8.2.3. **Reverse split or split**

If the Company carries out a reverse share split or a share split, subsection 8.2.2 above shall apply correspondingly, whereby the record date shall be deemed to be the date on which the reverse share split or share split is effected by Euroclear upon request by the Company.

In the event the Company carries out a new issue of shares - with priority rights for shareholders to Subscribe for new Shares in exchange for cash payment or payment through set-off of claims - the following shall apply with respect to the right to participate in the issue for Shares which are issued as a consequence of the Subscription through exercise of Warrants:

I. Should the Company's Shares not be listed, at the time of the issuance, a recalculation of the Subscription Price and the number of Shares each Warrant entitles to subscribe for shall be adjusted in accordance with the principles set forth in this item 8.2.4 II. The recalculation shall be made by the Company and shall be made on the basis that the value of the Warrants shall remain unchanged.

II. Should the Company's Shares be listed at the time of the issuance, the following shall apply with respect to the rights to participate in the new issue:

(i) Where the board of directors resolves to issue Shares subject to approval by the shareholders or in accordance with an authorization by the shareholders, the resolution to issue Shares shall set forth the last date on which Subscription through the exercise of Warrants shall be executed in order for Shares, which is issued as a consequence of Subscription, shall entitle the Warrant holders to participate in the issue. Such date may not be earlier than ten calendar days following the resolution to issue shares.

(ii) Where the shareholders have resolved upon the issue, the Subscription - for which notice for Subscription is made at such time that it cannot be effected on or before the tenth calendar day prior to the shareholders' meeting which decides upon the issue - shall be effected only after the Company has effected recalculation in accordance with this subsection 8.2.4, penultimate paragraph. Shares which are issued as a consequence of such Subscription shall be registered on an interim basis in the share register account and shall not entitle to participation in the issue.

Where Subscription is made at such time that no right to participate in the new issue arises, a recalculated Subscription Price as well as a recalculated number of Shares which each Warrant entitles to subscribe for shall apply. Recalculations shall be made by the Company in accordance with the following formulas:

$$\begin{aligned} \text{Recalculated Subscription Price} &= \frac{\text{The Subscription Price x the average share price of the Share during the Subscription Period set forth in the issue resolution (average price of Share)}}{\text{The average price of Share increased by the theoretical value of the subscription right calculated on the basis thereof}} \\ \\ \text{Recalculated number of Shares that each Warrant entitles to Subscribe for} &= \frac{\text{The previous number of Shares that each Warrant entitled to subscribe for x (the average price of Share increased by the theoretical value of the subscription right calculated on the basis thereof)}}{\text{The average price of Share}} \end{aligned}$$

The average price of a Share shall be deemed to correspond to the average for each trading day during the Subscription Period of the calculated mean value of the highest and lowest price paid for the Share according to market quotation. In the absence of a quoted paid price, the bid price which is quoted as the closing price shall form the basis for the calculation. Days when no paid price or bid price is quoted, shall be excluded from the calculation.

The theoretical value of the subscription right shall be calculated according to the following formula:

$$\text{The value of a subscription right} = \frac{\text{The maximum number of new Shares which may be issued pursuant to the issue resolution x (the average price of share minus the Subscription Price for the new Share)}}{\text{The number of Shares prior to the issue resolution}}$$

When recalculating in accordance with the above formula, any Shares held by the Company shall be disregarded. If a negative value arises, the theoretical value of the subscription right shall be determined to be zero.

The recalculated Subscription Price and the recalculated number of Shares as set forth above shall be determined by the Company two Business days after the expiration of the Subscription Period and shall apply to Subscriptions executed thereafter.

During the period until the recalculated Subscription Price and recalculated number of Shares that each Warrant entitles to subscribe for are determined, Subscription shall only be executed on a preliminary basis,

whereupon the full number of Shares according to the not yet recalculated number of Shares will be registered in the share register account on an interim basis. In addition, a special note shall be recorded to the effect that the Warrant may entitle the Holder to additional shares pursuant to the recalculated number of Shares. Final registration in the share register account shall be effected following the determination of the recalculations.

8.2.5. Issue of warrants and convertibles in accordance with the shareholders' priority rights

Where the Company carries out an issue in accordance with Ch. 14 or Ch. 15 of the Companies Act - with priority rights for the shareholders in exchange for cash payment or payment through set-off of claims - the provisions contained in subsection 8.2.4 I, and 8.2.4 II first paragraph (i) and (ii), shall apply correspondingly, with respect to the right to participate in the issue for Shares that have been issued as a consequence of Subscription through exercise of the Warrant.

I. Should the Company's Shares or subscription rights not be listed, at the time of the issuance, a recalculation of the Subscription Price and the number of Shares each Warrant entitles to subscribe for shall be adjusted in accordance with the principles set forth in this item 8.2.5. The recalculation shall be made by the Company and shall be made on the basis that the value of the Warrants shall remain unchanged.

II. Should the Company's Shares or subscription rights be listed at the time of the issuance, where Subscription is made at such time that no right to participate in the issue arises, a recalculated Subscription Price as well as a recalculated number of Shares which each Warrant entitles to Subscribe for shall be applied. Recalculations shall be made by the Company in accordance with the following formulas:

$$\begin{aligned} \text{Recalculated Subscription Price} &= \frac{\text{Previous Subscription Price} \times \text{the average share price of the share during the Subscription Period set forth in the resolution approving the issue (average price of Share)}}{\text{The average price of Share increased by the value of the subscription right}} \\ \text{Recalculated number of Shares that each Warrant entitles to Subscribe for} &= \frac{\text{Previous number of Shares that each Warrant entitles to Subscribe for} \times (\text{the average price of Share increased by the value of the subscription right})}{\text{Average price of Share}} \end{aligned}$$

The value of the subscription right shall be deemed to correspond to the average mean value of the highest and lowest prices paid for such rights each trading day during the Subscription Period according to market quotation. In the absence of a quoted paid price, the final bid price shall form the basis for the calculation. Days when no paid price or bid price is quoted, shall be excluded from the calculation.

The recalculated Subscription Price and the recalculated number of Shares as set forth above shall be determined by the Company two Business Days after the expiration of the Subscription Period and shall apply to Subscriptions made after such time.

In relation to notice of Subscription effected during the period until the recalculated Subscription Price and recalculated number of Shares have been determined, the provisions set forth in the final paragraph of subsection 8.2.4 above shall apply correspondingly.

8.2.6. Other offers directed to the shareholders

In the event the Company, under circumstances other than those set forth in subsections 8.2.2- 8.2.5 above, directs an offer to the shareholders, with a priority rights pursuant to the principles set forth in Ch. 13, section 1 of the Companies Act, to acquire securities or rights of any kind from the Company, or where the Company resolves, pursuant to the above stated principles, to distribute to its shareholders such securities or rights without consideration (the offer), the following shall apply, with respect to Subscriptions requested at such a time that the thereby acquired Shares do not carry rights to participate in the offer:

I. Should the Company's Shares not be listed, at the time of the issuance, a recalculation of the Subscription Price and the number of Shares each Warrant entitles to subscribe for shall be adjusted in accordance with the principles set forth in this item 8.2.6. The recalculation shall be made by the Company and shall be made on the basis that the value of the Warrants shall remain unchanged.

II. Should the Company's Shares be listed at the time of the issuance, a recalculated Subscription Price as well as a recalculated number of Shares which each Warrant entitles to Subscribe for shall be applied. Recalculations shall be made by the Company in accordance with the following formulas:

$$\text{Recalculated Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{the average share price of the share during the notice period set forth in the offer (the average price of share)}}{\text{Average price of share increased by the value of the right to participate in the offer}}$$

$$\text{Recalculated number of Shares that each Warrant entitles to Subscribe for} = \frac{\text{Previous number of Shares that each Warrant entitles to Subscribe for} \times (\text{the average price of Share increased by the value of the purchase right})}{\text{Average price of Share}}$$

The average price of Share is calculated in accordance with the provisions set forth in subsection 8.2.4 above.

In the event the shareholders received purchase rights and trading in such rights has taken place, the value of the right to participate in the offer shall be deemed to be equivalent to the value of the purchase right. The value of

the purchase right in such circumstances shall be deemed to correspond to the average mean value of the highest and lowest prices paid each trading day during the application period according to market quotation. In the event no paid price is quoted, the bid price quoted as the closing price shall be used in the calculation instead. Days when no paid price or bid price is quoted, shall be excluded from such calculation.

In the event the shareholders have not received purchase rights or where such trading in purchase rights mentioned in the previous paragraph has otherwise not taken place, recalculation of the Subscription Price and number of Shares shall take place, thereby applying, to the greatest extent possible, the principles set forth above in this subsection 8.2.6, whereupon the following shall apply. If market quotation of the securities or rights which are offered to the shareholders takes place, the value of the right to participate in the offer shall be deemed to correspond to the average of the calculated mean values, for each trading day during a period of 25 trading days commencing on the first day for the market quotation, of the highest and lowest price paid during the said day, for transactions in these securities or rights at the market place, where applicable, decreased by any consideration paid for such securities or rights in connection with the offer. In the absence of a quotation of paid price, the last bid price quoted shall be used in the calculation instead. If neither a selling price nor a bid price is quoted on certain given day or days, such day shall be excluded from the calculation of the value of the right to participate in the offer. When recalculation of the Subscription Price and the number of Shares is made according to this paragraph, the above mentioned period of 25 trading days shall be deemed to correspond to the application period determined in the offer. In the event no such market quotation takes place, the value of the right to participate in the offer shall, to the greatest extent possible, be based upon the change in the market value of the Company's Shares, which may be deemed to have occurred as a consequence of the offer.

The Subscription Price and number of Shares recalculated in accordance with the above shall be determined by the Company as soon as possible after the expiration of the offer and shall be applied on Subscriptions effected after such determination.

In relation to Subscriptions which are effected during the period until the recalculated Subscription Price and recalculated number of Shares have been determined, the provisions set forth in the final paragraph of subsection 8.2.4 above shall apply correspondingly.

8.2.7. Warrant holders' rights at an issue of warrants and convertibles in accordance with the shareholders' priority rights

Where the Company carries out a new share issue or an issue in accordance with Ch. 14 or Ch. 15 of the Companies Act - with priority rights for the shareholders to subscribe for new Shares in exchange for cash payment or payment through set-off of claims - the Company is entitled to decide that all Warrant holders are entitled to the same priority rights that are bestowed upon the shareholders. In connection with this, each Warrant holder, disregarding that Subscription has not been made, will be considered as owners of the number of Shares that the Warrant holder would have received if the Subscription had been executed before the issue.

Should the Company direct such an offer intended in subsection 8.2.6 above, to its shareholders, the provisions set forth in previous paragraph will apply correspondingly. However, the number of Shares which the Warrant holder shall be deemed to be owner of shall be determined after the Subscription Price which applied at the time of the resolution of the offer.

If the Company resolves to give the Warrant holders' priority rights, in accordance to the provisions set forth in this subsection 8.3.6, recalculation according to subsections 8.2.4, 8.2.6 or 8.2.6, shall not be made.

II. Should the Company's shares be listed, at the time of the issuance, and in the event the Company resolves to pay a dividend to the shareholders recalculation of the Subscription Price and the number of Shares each Warrant entitles the Warrant holder to Subscribe for, shall be made regarding Subscriptions requested at such a time that the Shares thereby received do not carry rights to receive such dividend. The recalculation shall be based upon the total dividend. The recalculation shall be made by the Company in accordance with the following formulas:

$$\text{Recalculated Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{the average share price of the Share during a period of 25 trading days calculated from the day on which the Share is quoted without any right to dividend (the average price of Share)}}{\text{Average price of Share increased by the dividend paid per Share}}$$

$$\text{Re-calculated number of Shares that each Warrant entitles to Subscribe for} = \frac{\text{Previous number of Shares that each Warrant entitles to subscribe for} \times \text{(the average price of Share increased by the dividend paid per Share)}}{\text{Average price of Share}}$$

The recalculated Subscription Price and the recalculated number of Shares as set out above shall be determined by the Company at the latest by the time of payment of the dividend in question and shall apply to Subscriptions executed thereafter.

In the event that notice for Subscription has been made but, due to the regulations in Section 7 above, final registration on the SR Account has not been made, it shall be specifically noted that each Warrant after recalculations may entitle the Warrant holder to additional Shares. Final registration in the SR Account is made after the re-calculations has been determined, but in no event earlier than the time stated in Section 7 above.

In the event that the Company is no longer a company registered with Euroclear, Subscription for Shares is effected by the new Shares being registered as interim shares in the Company's share register. Final registration in the share register is made after the recalculated Subscription Price and the recalculated number of Shares which each Warrant entitles to have been determined.

8.2.9. Repayment to the shareholders by reduction of share capital

In the event the Company's share capital or statutory reserve is reduced through a repayment to the shareholders, the following shall apply:

I. Should the Company's Shares not be listed, a recalculation of the Subscription Price and the number of Shares each Warrant entitles to subscribe for shall be effected in accordance with the principles set forth in this item 8.2.9. The recalculation shall be made by the Company and shall be made on the basis that the value of the Warrants shall remain unchanged.

II. Should the Company's Shares be listed, a recalculated Subscription Price as well as a recalculated number of Shares which each Warrant entitles to Subscribe for shall be applied. Recalculations shall be made by the Company in accordance with the following formulas:

$$\begin{aligned} \text{Recalculated Subscription Price} &= \frac{\text{Previous Subscription Price} \times \text{the average share price of the Share during a period of 25 trading days calculated from the day of which the Share is quoted without any right to participate in the distribution (the average price of Share)}}{\text{Average price of Share increased by the amount repaid per Share}} \\ \text{Recalculated number of Shares that each Warrant entitles to Subscribe for} &= \frac{\text{Previous number of Shares that the Warrant entitles to Subscribe for} \times \text{(the average price of Share increased by the amount repaid per Share)}}{\text{Average price of Share}} \end{aligned}$$

The average price of Share is calculated in accordance with the provisions set forth in subsection 8.2.4 above.

When re-calculating in accordance with the above and in the event that reduction is effected through redemption of shares, a repayment amount according to the calculation below shall be used instead of the actual amount that will be repaid per Share according to the following:

$$\text{Calculated repayment per Share} = \frac{\text{The actual amount that has been repaid per redeemed Share reduced by the average share price of the Shares during a 25 day period immediately prior to the day the Share is quoted without the right to participate in the reduction (the average price of Share)}}{\text{The number of Shares in the Company}}$$

that serves as basis for the redemption of
Shares reduced with the number 1

The average price of Share is calculated in accordance with the provisions set forth in subsection 8.2.4 above.

The recalculated Subscription Price and recalculated number of Shares as set out above shall be determined by the Company two Business Days after the expiration of the stated period of 25 trading days, and shall apply to Subscriptions made after such time.

Such recalculation of the currency shall be made with application of the exchange rate which has been used when recalculating the currency of the share capital.

The recalculated Subscription Price in accordance with above shall be determined by the Company and shall be applied on Subscriptions which are effected as from the day the currency change of the share capital became effective.

8.2.12. Reasonable recalculation

In the event that the Company carries out measures set forth in subsections 8.2.2- 8.2.6 or subsections 8.2.8- 8.2.11 above or other similar measure with similar effect and, if, according to the Company's opinion, the application of the intended re-calculation formula with regard to the technical structure or for another reason, may not be possible or result that the economic compensation the Warrant Holders shall receive becoming unreasonable in relation to that of the shareholders, the Company shall make the re-calculation of the Subscription Price as well as the number of Shares that each Warrant entitles to Subscribe for, for the purpose of the re-calculation leading to a reasonable result.
